SUBJECT INDEX TO VOLUME 16

Abscess, perianal:
  and fistula in ano, 755
Adenocarcinoma:
  of salivary gland origin, 89
  with skeletal metastasis, 89
Aicardi syndrome, 293
Alexander disease, 327
Angiofibromas:
  and tuberous sclerosis, 893
Antiphospholipid antibody disorders, 217
Appendix:
  acute torsion, 655
    and hemorrhagic necrosis, 657
Arterial calcification, idiopathic, 987
Atresia:
  bronchial, 149
    with broncholcele, 149
  intestinal, 25
    with meconium ileus, 25
Autosomal dominant polycystic kidney disease, 941

Barrett's esophagus, 195
Becker muscular dystrophy:
  and Duchenne muscular dystrophy, 393, 583
  significance of dystrophin-positive fibers in, 583
Beckwith-Wiedemann syndrome, 765
Bordetella pertussis infection, 643
Burkitt's lymphoma, 439

Caffey's disease, 490
Cardiomyopathy:
  and hydrops, 83
  and Noonan syndrome, 83
  and reaction to pulmonary surfactant, 83
Cardiovascular malformations, 173
Chorioamnionitis, 207, 732
Circulating lupus anticoagulant syndrome, 207
Congenital heart disease, 173
Cortical dysplasia, 131
Cystic adenomatoid malformation, type II congenital:
  and extralobar sequestration, 637
  with congenital diaphragmatic hernia, 637
Cysts:
  dedifferentiated cystic nephroma, 1005
  in mediastinal masses, 113
    bronchogenic, 113
    esophageal, 113
  interhemispheric, with thinned corpus callosum, 299

Cytomegalovirus:
  in intrauterine coinfection with cytomegalovirus, 935
Cytomegaly, adrenocortical:
  and adrenal hypoplasia, 765
  and Beckwith-Wiedemann syndrome, 765

Down syndrome:
  and intratubular germ cell neoplasia, 107
Duchenne muscular dystrophy:
  and Becker muscular dystrophy, 393, 583
  significance of dystrophin-positive fibers in, 583
  with dystrophinopathy in females, 393

Ectomesenchyoma, malignant, 607
Embryopathy:
  due to retinoic acid, 823
Ependymoma:
  expression of multidrug resistance gene, 551
  myxopapillary, extradural, 813
Ewing's sarcoma, 379
Extralobar sequestration:
  and type II congenital cystic adenomatoid malformation, 637
    with congenital diaphragmatic hernia, 637

Fat embolism syndrome:
  and hemoglobin S/β^+ thalassemia, 71
  and parvovirus B19 infection, 71
Fistula in ano:
  and perianal abscess, 755
Funisitis, acute, 732

Gastrin-releasing peptide, 927
Germ cells:
  neoplasia, 107
    and Down syndrome, 107
Gestational trophoblastic disease:
  and hydatidiform mole, 41
    and Ki-67 (MIB-1), 41
Glial implants:
  and inguinal herniation, 591
Glomerulocystic kidney disease, 941
Glomerulopathy:
  microangiopathic, 275
  with sickle cell anemia, 275
Graft-versus-host disease:
  associated with transfusion, 137

Hemoglobin S/β^+ thalassemia:
  and fat embolism syndrome, 71

and parvovirus B19 infection, 71
Hemophagocytic syndrome, 413
Hepatitis:
associated with polyglandular autoimmune disease, type 1, 625
and cirrhosis, 634
fulminant, 845
induced by propylthiouracil, 845
giant cell, 403
associated with human papillomavirus, 403
Hepatoblastoma:
with trisomy 18, 253
Herpes simplex virus:
in intrauterine coinfection with cytomegalovirus, 935
Hirschsprung's disease:
ultrashort segment, 319
Human adenovirus pneumonia:
acute, 527
chronic, 528
Human papillomavirus
associated with giant cell hepatitis, 403
Hydrops:
and cardiomyopathy, 83
and Noonan syndrome, 83
and reaction to pulmonary surfactant, 83
fetal, 563
and hemolytic anemia, 563
and tissue iron storage, 563
associated with congestive heart failure, 563
Hyperostosis:
and Caffey's disease, 490
induced by prostaglandin E_1, 489
Hypertension:
portal, 263
Hypoplastic left heart syndrome, 543
Hystiocytosis syndromes:
hemophagocytic syndrome, 413
Langerhans cell hystiocytosis, 413
Rosai-Dorfman disease, 415
xanthogranuloma, 414

Ichthyosis, 359
Intestinal atresia:
and meconium ileus, 25
Intraventricular hemorrhage, 713

Kidneys:
and WAGR syndrome, 1019
autosomal dominant polycystic kidney disease, 941
dedifferentiated cystic nephroma, 1005
malignant mesenchymoma as dedifferentiated component, 1005
glomerulocystic kidney disease, 941
nephroblastomatosis, 961
oxalate nephrocalcinosis, 479
Potter's syndrome, 509
and liver and brain iron deficiency, 509
Wilms' tumor, 253, 777
and All-*trans*-retinoic acid-induced growth suppression, 777
with raised alpha-fetoprotein level, 853

Langerhans cell hystiocytosis, 413
Large cell anaplastic lymphoma, 443
Leukemia:
and lymphoblastic lymphoma, 243
relative frequency and age distribution, 793
Liposarcoma:
pleomorphic, 99
Lupus erythematosus, systemic, 293
Lymphangiomatosis, 155
Lymphomas:
Burkitt's, 439, 794
Hodgkins, 794
large cell anaplastic, 493
lymphoblastic, 438
and leukemia, 438
non-Burkitt's, 794
non-Hodgkins, 439, 794

Meconium ileus:
and intestinal atresia, 25
Mediastinal masses:
single, with bronchogenic duplication cyst, 113
single, with esophageal duplication cyst, 113
Medulloepithelioma, 663
Melanoma, 801
Muscular dystrophy:
Becker, 393
significance of dystrophin-positive fibers in, 583
Duchenne, 393, 583
significance of dystrophin-positive fibers in, 583
with dystrophinopathy in females, 393
Myelomeningocele, 701

Nephroblastomatosis, 961
Nervous system, enteric, 51
Noonan syndrome:
and cardiomyopathy, 83
and hydrops, 83
and reaction to pulmonary surfactant, 83
Nutrition:
assessment in pediatric patients, 1

Pancreas:
Pancreatitis, 681
chronic fibrosing, 681
chronic idiopathic, 681
solid and papillary tumor in, 235
Parvovirus B19:
and fat embolism syndrome, 71
and hemoglobin S/β^+ thalassemia, 71
and transient erythroblastopenia of childhood, 471

Peripherin:
and malformations of the enteric nervous system, 51
Placenta:
and asbestos transfer, 877
and chronic villitis, 143
and intrauterine coinfection with *Herpes simplex* virus and cytomegalovirus, 935
and perinatal pathology, role in, 207
antiphospholipid antibody disorders, 217
chorioamnionitis, 207
circulating lupus anticoagulant syndrome, 213
preeclampsia, 207
uteroplacental vascular disease, 213
villitis, 207
gestational trophoblastic disease, 41
and hydatidiform mole, 41
and Ki-67 (MIB-1), 41
glycogen levels in placental disk, 597
stem vessels, thrombosis of, 143
weight, reference values for singleton and twin, 901
with thrombotic vasculopathy, 143

Pneumonia:
human adenovirus infection, 521
acute, 527
chronic, 528
interstitial, 522
Polyglandular autoimmune disease:
type 1, 625
associated with chronic hepatitis, 634
and cirrhosis, 634
Potter's Syndrome:
and liver and brain iron deficiency, 509
Preeclampsia, 207
Primitive neuroectodermal tumors:
cerebellar, 119, 837
with t(11;22) translocation, 119
coexistant with cerebellar dysplasia, 837
Pulmonary hypoplasia:
and Ki-67 (MIB 1), 745

Rhabdomyoma, 673
Rhabdomyosarcoma, clear cell, 951
Rosai-Dorfman disease, 415

Sickle cell anemia:
with microangiopathic glomerulopathy, 275
Spina bifida:
and axial skeleton, 909
and cranial encephalocele, 909
and pituitary gland, 909
Sudden Infant Death Syndrome, 691

Testis:
development of fetal, 9
sex cord—stromal tumors in, 451
Thrombotic vasculopathy, 143

Transient erythroblastopenia of childhood:
and parvovirus B19, 471
Trisomy 18:
and Wilms' tumor, 853
with hepatoblastoma, 253
Tuberous sclerosis:
angiofibromas in, 893
Tumors:
adenocarcinoma, 89
angiofibromas, 893
cystic, solid and papillary, 235
ectomesenchyoma, malignant, 607
ependymomas, 551
and multidrug resistance gene, 551
myxopapillary, 813
hepatoblastoma, 253
liposarcoma, 99
lymphomas, 435
Burkitt's, 439
large cell anaplastic, 443
lymphoblastic, 438
non-Burkitt's, 794
non-Hodgkins, 794
mediastinal mass, 113
medulloepithelioma, 663
nonteratoid, of the retina, 663
melanoblastoma, 801
melanoma, 801
mesenchymoma, 1005
neoplasms, 791
bone, malignant, 797
epithelial, malignant, 796
germ cell/gonadal, 796
hepatic, malignant, 797
intercranial, 794
renal, malignant, 794
neuroblastoma, 796
polyphenotypic, 161
primitive neuroectodermal, 119, 837
retinoblastoma, 794
rhabdomyoma, 673
rhabdomyosarcoma, clear cell, 951
salivary gland anlage, 975
sarcoma, 794
sex cord—stromal, 451
teratoma, sacrococcygeal, 865
Wilms', 253, 777

Uteroplacental vascular disease, 213

VATER association, 299
Villitis:
placental, 207
chronic, 143
recurrent, of bacterial etiology, 997

WAGR syndrome, 1019
Wilms' tumor, 253, 777, 853

Xanthogranuloma:
disseminated juvenile, 414
